

MS Terminal Services

Now just a connection, but also control your resource

What is MS terminal services ?

Terminal Services allows a user to access applications or data stored on a remote computer over a network connection. Terminal Services is Microsoft's take on server centric computing, which allows individual users to access network resources easily.

You need an expert for Virtual Private Network (VPN)

A picture better than thousand words. Ask for a **real Terminal Services DEMO** from us now! please call Mr. Ong at 012-2399889.

Here are the solutions, Action now!
